In 2020 Gallery Z celebrates twenty years and over 300 exhibits of Fine Art on historic Federal Hill, Providence, Rhode Island. Presenting American, European and Armenian artists from the early 20th century to the present, Gallery Z supports emerging and established artists while connecting the public with the vibrant local and regional arts community. Fostering an ongoing culture of appreciation of fine art is also part of its mission. Paintings in various genres and styles, silver gelatin photographs, drawings, mixed media, glass, sculptures, assemblages, lithographs, fine ceramics and pottery are all regularly presented.

Marty McCorkle is January's featured artist. Born in Los Angeles, Marty also spent time in San Francisco and as of many years ago has made his home in the Philippines. Marty is known for his distinctive deconstructive style of painting, digitally manipulating his photos into oils on canvas, a marriage of digital technology and traditional painting. Also renowned for his individualistic and color-laden depictions of the dynamic perspective of the deconstructed human figure and the lush colors of the South Seas, his work is in collections worldwide.

In commemoration of this milestone year, Gallery Z is offering a 20% discount off everything in the gallery in January and February. Additionally, selected pieces from the Gallery Director's own collection, in assorted subjects, formats and genres, are being offered at 50% off. There is a free gift with any purchase. Original art works are drawn from its vast collection represent over 400 recognized local, regional, national and international fine artists.
